## 1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the schools to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Our Federation aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

The purpose of this plan is to show how The Stonehouse Park Federation intends, over time, to increase the accessibility of our schools for disabled pupils. The Stonehouse Park Federation is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs.

The plan will be made available online on the federation's website, and paper copies are available upon request.

Our federation is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The schools support any available partnerships to develop and implement the plan.

Our federation complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in schools, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including pupils, parents, staff and governors of the federation.

## 2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

### **3. Monitoring arrangements**

This document will be reviewed every **3** years, but may be reviewed and updated more frequently if necessary. It will be approved by the governors.

The accessibility audits are school specific.

The accessibility action plan is for the federation.

### **4. Links with other policies**

This accessibility plan is linked to the following policies and documents:

- Health and safety policy
- Special educational needs (SEN) policy and information report
- First Aid policy including supporting pupils with medical conditions.
